Core Competencies

No-Code/Low-Code

No-code is a new programming language now. Yoroflow ensures user-friendliness to design & build their forms, applications, boards, automations to achieve the expectations on their processes.

Top Notch Customization

Yoroflow's version control makes customization easy for enterprises or SME's to adapt the new change in their business model without losing their data anytime in minutes.

Seamless Integrations

Yoroflow ensures the success of a process with its effective API communication with any 3rd party system. Integrating tools are simple and no more developer's job with the low-code technology.

Cybersecurity

Yoroflow follows strict compliance standards with easily integrated security and risk management factors. Processes, forms, applications, boards, data are continuously monitored and prevented from any unauthorized access.

Business Areas

- ✦ Project Management
- ✦ Human Resource Management
